

Roof Repairs Key Messages

Over the next three years, hundreds of sections of TDSB school roofs will be replaced to ensure continued safe working and learning environments for our staff and students.

Due to the high volume, they must be completed during the school year and in daylight hours, but as much work as possible will be done outside of regular school hours.

We are working with our Facilities and Health and Safety teams to ensure a safe working and learning environment for all of our staff and students during this work.

Should you have any concerns about your health related to this issue, please do not hesitate to contact your principal.
