Petition to the Ontario Legislative Assembly

Invest in the Schools our Students Deserve: Stop the Cuts!

Whereas the provincial government has announced over \$1 billion in funding cuts to our schools, which will result in: bigger class sizes in Grades 4-12; significantly less support for the most vulnerable students, including those with disabilities, special needs, and English language learners; mandatory e-learning for high school students; and cuts to badly needed school repairs,					Location:
 We, the undersigned, petition the Legislature of Ontario to oppose these damaging cuts and implement: Full funding to our public education system at existing levels, and no mandatory e-learning for any students An education funding formula that: a) Increases support for special education; b) Reduces class sizes in Kindergarten and Grades 4 - 12; and c) Increases capacity to deliver front-line services by paraprofessionals An Ontario-wide "State of Good Repair Standard" for all public schools so they are safe, healthy, well-maintained buildings that provide environments conducive to learning and working. An evidence-based review of the education funding formula every five years to determine its effectiveness in supporting high quality public education. 					Collected by: Yes! I want to join the Fight for Public Schools!
