MENTAL HEALTH FOCUS

Support Mental Health
Workload Workplace Rights.

Action:

Advocate for real workload relief through staffing protections and enforcement of working conditions. Expand access to mental health supports and challenge toxic workplace dynamics.

Impact: Protect your well-being and dignity at work — because you can't support students if the system isn't supporting you.

"When you support me, you are gaining a committed advocate! I will always be here to stand with you and your trust will empower me to fight for you:

Together we will build strength through mutual respect, unity and collective action!"

Your voice. Your union. Your future.
